## Space Data

- Automatically create graphic reports by coloring, hatching, annotating, or any combination
- Modify floor plans using standard AutoCAD commands and update the database automatically
- Access space information in the database by simply clicking the desired room or space
- Area calculations comply with FICM, IFMA, BOMA, or any other institutional standards
- Fully customizable to your organization's existing drawing and layering standards
- Built-in error checking of area boundaries, space identifiers, and area calculations
